Ancient Roots and the Dawn of Ethical Inquiry

The journey begins in the vibrant intellectual climate of ancient Greece, where the seeds of ethical thought were first sown. Whewell introduces us to the iconic figures of Socrates, Plato, and Aristotle, whose ideas laid the foundation for Western ethical philosophy. Through their enduring works, we encounter the birth of moral concepts such as virtue, justice, and the pursuit of the good life.

Medieval Interlude and the Influence of Religion

The narrative then shifts to the Middle Ages, a period marked by the profound influence of religion on moral thought. Whewell explores the ethical doctrines of Augustine and Aquinas, revealing how religious beliefs shaped the moral landscape of the era. He examines the interplay between faith and reason, duty and conscience, and the enduring legacy of medieval ethical thought.

Reformation and the Birth of Modern Moral Philosophy

With the dawn of the Reformation, the seeds of individualism and secularism took root in moral philosophy. Whewell traces the emergence of modern ethical thinkers such as Hobbes, Locke, and Hume, who

challenged traditional notions of morality and emphasized the role of reason and experience in shaping our ethical judgments.

Enlightenment and the Triumph of Reason

The Enlightenment ushered in an era of unprecedented optimism and faith in human reason. Whewell delves into the ethical theories of Kant, the preeminent figure of the Enlightenment, who articulated the concept of categorical imperatives and emphasized the importance of duty and universalizability.

Romanticism and the Birth of Utilitarianism

As the Enlightenment waned, Romanticism emerged as a countervailing force, emphasizing emotion, intuition, and the individual experience. Whewell examines the ethical philosophies of philosophers such as Mill, who argued for the greatest happiness for the greatest number, and Bentham, who pioneered the principle of utility as the basis for moral action.

Modern Moral Thought and the Search for Meaning
